Rapidstick™ Glue & Silicone Remover

PART NUMBER	AVAILABLE SIZE
8-GSR-300	300g Aerosol
8-GSR-500ML	500ml

PRODUCT DESCRIPTION

Chemtools® Rapidstick™ Glue & Silicone Remover is a versatile all-in-one degreaser and silicone remover, ideally used for preparing surfaces prior to bonding, or before applying new silicone, MS Polymer, or other types of sealants. Cured and un-cured silicone, and old or caked-on glues are effectively dissolved in minutes without breaking down or attacking the underlying surface coating.

Glue & Silicone Remover is made from a unique blend of hydrocarbon and citrus oils which produce a pleasant citrus aroma whilst cleaning, and evaporate shortly after. It is non-corrosive and safe for use on a wide range of substrates including metals, glass, powder-coated or painted surfaces, wood, and most plastics.

Glue & Silicone Remover contains no halogenated solvents and is biodegradable.

Note: Persons sensitive to d-limonene should wear the appropriate Personal Protective Equipment (PPE) to avoid unnecessary exposure.

DIRECTIONS (READ LABEL BEFORE USE)

Using a knife, plastic spatula, or other suitable tool, remove as much of the hardened glue or silicone as possible, prior to application.

Apply liberally to the target area and allow to soak for at least 10 minutes before removal.

Wipe clean using a dry, lint free cloth, such as Chemtools® Lint Free Wipes - 100 pack (Part Number: CT-LFW-100). Stubborn residues may be carefully lifted with a plastic spatula.

Once cleaned, wash the surface with water to avoid any solvent damage.

STORAGE

Keep out of reach of children. Store below 30°C. Protect from direct sunlight. Do not expose to temperatures exceeding 50°C.

FIRST AID & SAFETY PRECAUTIONS

Please refer to Safety Data Sheet (SDS) before use. Use with adequate ventilation and avoid breathing fumes. Avoid contact with eyes and skin. This product may produce adverse health conditions, ranging from minor skin irritation to serious systemic effects. It should not be used, stored, or transported until the handling precautions and recommendations as stated in the Safety Data Sheet (SDS) for this product have been fully understood by all persons who will work with the material.

DISCLAIMER

Chemtools® has made every effort to ensure the information provided in this Technical Data Sheet is accurate at the time of publication. Chemtools® expressly recommends that the user make his/her own assessment to determine the suitability of the product for its intended purpose prior to application. Chemtools shall not be responsible for loss, damage, or injury, resulting from the reliance upon, or failure to adhere to, any recommendations or information contained herein; nor from abnormal use of the material; nor from any hazard inherent in the nature of the material.
