Issued: February 2022

Rapidstick™ Label & Adhesive Remover

PART NUMBER	AVAILABLE SIZE
8-LR-300	300g Aerosol
8-LR-500ML	500ml

PRODUCT DESCRIPTION

Chemtools® Rapidstick™ Label & Adhesive Remover quickly penetrates to effectively dissolve old or caked-on adhesive gums, stickers, inks, and waxes, easily releasing paper-based labels such as barcodes, price tags, and product ID tags with no surface rubbing or scratching required. It is safe to use on glass, metals, foil, wood, most plastics, and many types of rubbers, without breaking down or attacking the underlying surface coating.

Label & Adhesive Remover is formulated with a unique blend of hydrocarbon and citrus oils producing a pleasant citrus aroma whilst cleaning, evaporating shortly after to allow new labels to be affixed directly to the area. It contains no halogenated solvents, is ozone-friendly, and is biodegradable.

Note: Persons sensitive to d-limonene should wear the appropriate Personal Protective Equipment (PPE) to avoid unnecessary exposure.

DIRECTIONS (READ LABEL BEFORE USE)

Shake for 5 - 10 seconds prior to application.

Note: For the removal of non-paper, non-porous, or plastic labels, carefully peel off the label first.

Apply liberally to target area and allow to react for approximately 60 seconds.

Pull the label off slowly or wipe away dissolved residue with a soft cloth. If the label does not remove cleanly on the first attempt, repeat the process.

Stubborn residues may be carefully lifted with a plastic spatula.

FIRST AID & SAFETY PRECAUTIONS

Please refer to Safety Data Sheet (SDS) before use. Use with adequate ventilation and avoid breathing fumes. Avoid contact with eyes and skin. This product may produce adverse health conditions, ranging from minor skin irritation to serious systemic effects. It should not be used, stored, or transported until the handling precautions and recommendations as stated in the Safety Data Sheet (SDS) for this product have been fully understood by all persons who will work with the material.

STORAGE

Keep out of reach of children. Store below 30°C. Protect from direct sunlight. Do not expose to temperatures exceeding 50°C.

Containers must be secured and stored upright during transit.

DISCLAIMER

Chemtools® has made every effort to ensure the information provided in this Technical Data Sheet is accurate at the time of publication. Chemtools® expressly recommends that the user make his/her own assessment to determine the suitability of the product for its intended purpose prior to application. Chemtools shall not be responsible for loss, damage, or injury, resulting from the reliance upon, or failure to adhere to, any recommendations or information contained herein; nor from abnormal use of the material; nor from any hazard inherent in the nature of the material.
