PRODUCT DESCRIPTION

Chemtools® Non-Flammable Brake & Parts Cleaner is a new and innovative professional strength, fast drying solvent designed to penetrate and flush away grease, oil, dirt, and grime, eliminating the need to disassemble. It leaves no residue and is non-corrosive to metals.

Quickly cleaning the most difficult greases and oils from electronics, relays, and motors, BCNF also cleans electrical components such as contacts and alternators. Its powerful formula is highly recommended and much safer to use than the four most common industrial solvents: TCE (Trichloroethylene), nPB (n-Propyl Bromide), Perchloroethylene and Methylene Chloride.
